

AFTER 7 YEARS SUFFERING

I Was Cured by Lydia E. Pinkham's Vegetable Compound

Waurika, Okla.—"I had female troubles for seven years, was all run down, and so nervous I could not do anything. The doctors treated me for different things but did me no good. I got so bad that I could not sleep day or night. While in this condition I read of Lydia E. Pinkham's Vegetable Compound, and began its use and wrote to Mrs. Pinkham for advice. In a short time I had gained my average weight and am now strong and well."

—Mrs. SALLIE STEVENS, R. F. D., No. 3, Box 31, Waurika, Okla.

Another Grateful Woman.
Huntington, Mass.—"I was in a nervous, run-down condition and for three years could find no help."

"I owe my present good health to Lydia E. Pinkham's Vegetable Compound and Blood Purifier which I believe saved my life."

"My doctor knows what helped me and does not say one word against it."

—Mrs. MARI JANETTE BATES, Box 134, Huntington, Mass.

Because your case is a difficult one, doctors having done you no good, do not continue to suffer without giving Lydia E. Pinkham's Vegetable Compound a trial. It surely has cured many cases of female ills, such as inflammation, ulceration, displacements, fibroid tumors, irregularities, periodic pains, backache, that bearing-down feeling, and nervous prostration.

Willing to Make an Effort.
On a large estate in the Scottish highlands it was the custom for a piper to play in front of the house every week day morning to awaken the residents. After an over-convivial Saturday night, however, the piper forgot the day and began his reveille (can it be played on the pipes?) on Sunday morning. The angry master shouted to him from the bedroom window: "Here, do you not know the fourth commandment?" And the piper sturdily replied: "Nae, sir, but ye'll hie—whistle it till—hie—try it, sir."

Newest of Aero-Hydroplanes

A very uncommon craft, embodying the principles of the hydroplane or skimming boat, and the aeroplane, has recently been built at Cowes, England, for use in the speed tests at Monaco. This strange vessel can rise from the surface of the water, make an aerial voyage and descend to float on the waves. The aero-hydroplane, as it is called, was designed by M. Ravaud, a young French aviator. The hull consists of two hydroplane floats, each about 20 feet long, supporting the body of the machine above. This is a boat shaped hull or carriage with an aerial propeller driven by a 50-horse power rotary engine at the stern. The rudder is at the bow. The "boat" has two planes on each side and small ones on the floats. Accommodation is provided for three or four passengers.

BIGGEST BIRD'S NEST

The biggest bird's nest in the world, not excepting the stork's, is built by the African grosbeak. It is really a hundred nests or more bound together with closely interwoven sticks, vines and strands of coarse grass, and is not built by a single pair of birds, but by a colony of them. It is of such enormous size that at a little distance it is often mistaken for one of the native huts built in the trees so frequently found in wild tropical countries where man-eating animals abound, and the only way to sleep in safety is to "roast high."

The birds usually select a thorn-tree, probably because of the protection afforded by the sharp, long thorns against marauders. All around the nest the roof of sticks, thatched with dried grass, projects to let the rain run off. A deep fringe of grass hangs from this cornice like a curtain to keep out any stray drops. These great nests are added to from year to year, each pair of mated birds building on the main nest. Sometimes the nest becomes too heavy, and the branch breaks or the great mass of sticks falls to the ground, destroyed by its own weight. The grosbeak is no larger than an English sparrow and just as gregarious.

PUPHEK DANCE IN PARAGUAY

Among the natives of Paraguay when a girl comes of age the event is celebrated by a big feast, the chief feature of which is the puphek dance by the women. It takes its name from the bunches of deer hoofs attached to the long poles which the dancers carry. When struck on the ground they produce a loud jangle to which the dancers, numbering from twenty to thirty, keep step.

WORSHIP THE GODDESS KALI

Robert Dultwich, who has traveled extensively in the lesser known regions of the Himalaya, gives an interesting account of a native sect known as the Thrayas who have some curious practices. The sect are worshippers of the goddess Kali. They believe either in self-destruction or in the sacrifice of one of their fingers to appease the deity. Thus it comes about that when the eldest member of a family is married the unhappy mother is expected to cut off the first two joints of the last two fingers of her hand. Princesses and other smart people in this remarkable sect are allowed to offer a substitute of finger joints, modeled in gold.

DOG SAVES BOYS FROM DEATH

Two fourteen-year-old boys, Carl Lewis and Sherman Goodyear, of Charlestown, W. Va., were saved from death a few days ago by their dog. While on a hunting trip the boys entered an abandoned mine and were lost. One of their dogs returned home and led a rescue party to the mine where the youthful miners were found almost frozen to death. They had burned their clothing for fuel, were without food and in a semi-conscious condition. One dog remained with the boys until they were rescued.

THUMB SCREW FOR BEAUTIES

China is not the only country where the fair sex voluntarily undergo mild forms of torture in order to bring themselves into conformity with conventional ideas of beauty. In America and Europe contrivances much like the ancient thumb screws are used to give the desired fluted shape to the nails on women's hands and while they inflict some suffering, they are said to be effective.

CANARY THAT REALLY TALKS

At the National Cage Bird Show held recently at the Crystal Palace in London, the exhibits numbered 3,500. The bird which attracted the most attention was a talking canary, the property of Mrs. Ives of Thundersley, Essex. It is claimed that this wonderful bird can sing, talk and whistle, and it is said to be fond of the phrases, "My dear boy," "Joey, you are a pretty boy," "Kiss your missus," and "Joey, you are a dear beauty." It was reported some years ago that Queen Alexandra had a canary that talked, but this is the first time on record that any talking canary has been entered in a bird show.

COWS EAT RAILROAD SPIKES

Lehigh county (Pennsylvania) cows seem to have developed a curious appetite, which cannot be accounted for, in view of the quantities of juicy fodder and ensilage on hand to feed them. At about the same time recently a cow owned by John Griffy of Welsenberg township and one belonging to P. M. Bauman of Westconville, six miles apart, died suddenly. Post-mortems showed that each had swallowed a railroad spike.

MILLIONS OF COB PIPES

Corn cob pipes continue to bring fame to Missouri and money to the five towns which make a specialty of manufacturing them. This unique industry, while still in its infancy, netted seven factories \$438,418 in 1910. The production of 1910 amounted to 25,455,548 pipes.

King's Stone at Kingston

In the English city of Kingston, there stands, surrounded by a protecting railing, the object from which the town derives its name. This is the "King's Stone," a piece of rock which served as the throne at the coronation of all the early Saxon kings. It is a most carefully preserved relic, and of great interest in this, the year of King George's coronation.

"ECZEMA ITCHED SO I COULDN'T STAND IT."

"I suffered with eczema on my neck for about six months, beginning by little pimples breaking out. I kept scratching till the blood came. It kept getting worse, I couldn't sleep nights any more. I kept itching for about a month, then I went to a doctor and got some liquid to take. It seemed as if I was going to get better. The itching stopped for about three days, but when it started again was even worse than before. The eczema itched so badly I couldn't stand it any more. I went to a doctor and he gave me some medicine, but it didn't do any good. We have been having Cuticura Remedies in the house, so I decided to try them. I had been using Cuticura Soap, so I got me a box of Cuticura Ointment, and washed off the affected part with Cuticura Soap three times a day, and then put the Cuticura Ointment on. The first day I put it on, it relieved me of itching so I could sleep all that night. It took about a week, then I could see the scab come off. I kept the treatment up for three weeks, and my eczema was cured."

"My brother got his face burned with gunpowder, and he used Cuticura Soap and Ointment. The people all thought he would have scars, but you can't see that he ever had his face burned. It was simply awful to look at before the Cuticura Remedies (Soap and Ointment) cured it." (Signed) Miss Elizabeth Gehrl, Forest City, Ark., Oct. 16, 1910.

Although Cuticura Soap and Ointment are sold by druggists and dealers everywhere, a liberal sample of each, with 32-page booklet on the care and treatment of skin and hair, will be sent, postfree, on application to Potter D. & C. Corp., Dept. X, Boston.

TREASURED SECRET WAS OUT

Football Referee's Devotion to Duty Evidently Had Got Him Into Serious Trouble.

The referee had swallowed the whistle. It was very unfortunate, but it was not his fault. A burly forward had charged him fairly in the center of his back, sending the whistle down his throat.

"The game must end!" cried some one. "We can't do without a whistle."

"It's all right!" gasped the referee. "I've got a substitute. We can go on."

He produced a latch key from his pocket, and as the game commenced blew several hearty blasts on his new whistle.

Suddenly a woman's voice, loud and angry, was heard above the roar of the game.

"Ferdinand, what does this mean, sir! Where did you get that latch key?"

Then Ferdinand slunk off the field, for the voice was the voice of his wife.

Labrador's Future.

According to statements made the other day by Dr. Grenfell of Labrador, the Cinderella of British possessions, has a brilliant future before it. Dr. Grenfell, who has lived 20 years in that snowy country, says that in days to come it will carry a population as easily as Norway does today. It is, he says, a better country than Iceland, and to be greatly preferred to Lapland, Finland, Siberia and Northern Alaska.

WELCOME WORDS TO WOMEN

Women who suffer with disorders peculiar to their sex should write to Dr. Pierce and receive free the advice of a physician of over 40 years' experience—a skilled and successful specialist in the diseases of women. Every letter of this sort has the most careful consideration and is regarded as sacredly confidential. Many sensitively modest women write fully to Dr. Pierce what they would shrink from telling to their local physician. The local physician is pretty sure to say that he cannot do anything without "an examination." Dr. Pierce holds that these distasteful examinations are generally needless, and that no woman, except in rare cases, should submit to them.

Dr. Pierce's treatment will cure you right in the privacy of your own home. His "Favorite Prescription" has cured hundreds of thousands, some of them the worst of cases.

It is the only medicine of its kind that is the product of a regularly graduated physician. The only one good enough that its makers dare to print its every ingredient on its outside wrapper. There's no secrecy. It will bear examination. No alcohol and no habit-forming drugs are found in it. Some unscrupulous medicine dealers may offer you a substitute. Don't take it. Don't trifle with your health. Write to World's Dispensary Medical Association, Dr. V. Pierce, President, Buffalo, N. Y.,—take the advice received and be well.
